

MELCON®

Excellence fuels the fastest growth

| Durable & Energy Efficient Transformers | Low Maintenance | Compact & Robust Design
| Competitive Price | Timely Delivery | Prompt Service Support
| Unmatched Performance |

Manufacturer & Exporter of – ■ POWER / DISTRIBUTION Oil immersed Transformers upto 10MVA, 33KV Class ■ DRY TYPE Transformers ■ BEE STAR Rated/ BIS IS 1180 Energy Efficient Distribution Transformers ■ Specially designed Transformers including ISOLATION, FURNACE (Arc & Induction), HERMETICALLY SEALED, DUAL RATIO, Auxiliary Solar Duty, SCOTT-T Heat Tracing application Transformers ■ Other customized Transformers & Allied Services

Registered with/ Vendor to -

- NTPC SAIL Power Company Pvt Ltd
- BSES Rajdhani Power Ltd (BRPL)
- Power Grid Corporation of India Ltd (PGCIL)
- DGS&D, Chandigarh
- & many more organizations of repute.

Products

- **Three Phase , Oil Immersed Distribution & Power Transformers** | Range: 5 KVA to 10000 KVA upto 33 KV Class
- **Dry type Transformers** upto 5000kVA | VPI Technology with *In-built safety feature & Crack- Proof*
- **Servo Controlled Voltage stabilized Transformers** | (1KVA-1000KVA)
- **Furnace Transformers** (Arc furnace/ Induction furnace) | upto 5 MVA
- **Isolation & Ultra Isolation Transformers** | *Oil & Dry type with reduced 3rd & 5th Harmonics*

- **Hermetically Sealed Transformers** | *floor saving design for exports & installation inside Compact Substations*
- **SDT Transformers** | *Specially Designed Transformers suitable for Solar applications, Wind mills, Dual vector groups, Zig Zag type, NGR coupled applications, Railway coaches & Signaling, etc which have become industry benchmarks in terms of electrical characteristics & finishing with MELCON transformers & control the power factor.*

Fittings & Accessories

As per standard practice, the following fittings are provided: Rating and diagram plate, earthing terminals, lifting lugs, thermometer pocket, air release plug with hole, oil filling hole with plug on conservator.

Silicagel breather, oil level indicator, off circuit tap switch, drain valve with plug, oil conservator with drain plug, filter valve with plug.

Rollers, explosion vent with single diaphragm. Jacking lugs, inspection cover, HV & LV terminations.

OLTC/ RTCC AVR/ CSP feature / Arching Horns/ Marshalling Box/ Inspection Cover/ Corrugated tank/ Cable Boxes, Buchholz Relay, etc are optional and as per customer's requirement

Cooling – ONAN/AN/ONAF/OFWF/ as per customer's requirement

Quality Management Standard – ISO 9001:2008

Manufacturing Standard/ Reference Specification

- IS / IEC / ANSI / BIS / NEPA / BEE/CBIP/ CTL or as applicable

Services

- **Complete Repair, Reconditioning & Overhauling** of Distribution, Auxiliary & Power Transformers upto 10MVA, 33Kv Class
- **Transformer Design & Implementation** Consultancy
- **Raw material / transformer active parts sourcing & Technology transfer** Services

About Us

MELCON is the pioneer ISO 9001 accredited organization engaged in the manufacture and export of POWER & DISTRIBUTION TRANSFORMERS and other CUSTOMIZED TYPES of TRANSFORMERS since 1991.

Our goal is to provide our Clients with Responsive, Technically accurate Products & Prompt Services at a great value. All the transformers are tested for their quality to ensure that they match the stringent quality standards. Every TRANSFORMER sold by us is backed by MELCON SERVICE NETWORK manned by highly skilled technical staff.
